

## Program Options:

John Wells' author visit can be brought to your school by selecting one of these three options:

### ◆ Option 1: Literary Enrichment Package

The Literary Enrichment Package offers a customized presentation that adds to the narrative, enhancing the ELA (English Language Arts) curriculum by providing valuable tools. **This includes a structured introduction to a story's characters, settings, themes, and elements, serving as a scaffold for deeper exploration in classroom instruction.** Educators can effortlessly integrate these elements into their lessons, creating an enriched and immersive literary experience for students.

Designed for schools with a commitment to fostering a love for reading on a broader scale, the Literary Enrichment Package stands as **a preferred choice for many school administrators seeking to acquire books for specific classes, entire grade levels, or as part of a comprehensive school-wide reading initiative.** This option consistently demonstrates a significant educational impact on the student body. Schools opting for a bulk order of books are guaranteed seamless coordination, ensuring timely delivery aligned with the scheduled presentation and signing.

*Note: This option requires a minimum number of books to be purchased, adjusted based on the school size.*

### ◆ Option 2: Tailored Readership Initiative

The Tailored Readership Initiative Presents a flexible approach to accommodate schools' uncertainty regarding student interest in reading. With this option schools only purchase books for students who expresses a desire to have one.

This allows administrators to tailor their orders precisely to the demand, ensuring that no student is left without the opportunity to engage with John's enriching literary offerings. Embracing this adaptable solution not only maximizes inclusivity but also allows schools to align their book procurement with the expressed preferences of their student body.

*Note: This option will limit the number of signed copies available to students the day of the visit.*

◆ **Option 3: 5-Day Book Sale**

The 5-Day Book Sale option introduces an innovative approach, allowing schools to bring John Wells III to their campus with no upfront costs. Commencing **3-5 days** before the visit, the school will circulate a letter (provided by John) to students, parents, and guardians, elucidating the purpose of the visit, details about the books, and the process of purchasing a copy for the signing after the presentation.

Post-visit, the school will orchestrate a **book sale**, offering students the opportunity to order books for a minimum of 5 school days (and up to 10 school days) after the presentation. Following the completion of the sale, books will be promptly dispatched to the school, facilitated by the submission of the Post Show order form accessible through the program links. This option ensures a cost-effective way to host an engaging author visit.

*Note: There is absolutely no requirement for any student to buy a book; however, allowing parents/guardians and their students the opportunity to purchase if they want makes it possible for this program to remain free for schools.*
